The Finest Handcrafted Ales And Lagers In The World!

**SEASONAL BEER**

Watch for our seasonal beers, brewed fresh year round. Each season we offer a special beer that we feel embraces the season and adds a unique flavor and spirit

**Engage Your Senses With The Sensational Beers Of BIG RIVER!**

Beers are generally divided into two categories, either Ales or Lagers. Traditionally, lagers have a crisp flavor with a clean finish while Ales offer a more fruity flavor that lingers. At Big River, we feature a variety of both Ales and Lagers, each having a character and richness all of its own.

Let EACH of your senses enjoy the full experience of our handcrafted beers!

**COLOR** - A beer's color is derived from one ingredient: malted barley. There are many styles of malted barley, each having its own color. This in turn determines the color of the beer.

**AROMA** - Depending on the characteristics of the malted barley, hops and yeast, there is a vast array of aromas that can range from herbal and floral notes all the way to fruit-like notes.

**FLAVOR** - The flavor is affected by all the ingredients used that can vary from a very sweet to a dry, strong hop presence. Some beers can even have any combination of chocolate, caramel, coffee, toasted, woody or nut-like character.

**BODY** - The mouthfeel of beers can range from a crisp dry feel to thick & chewy.
